Unit 4, Lesson 1

# How Many Groups?

Let's represent and solve problems.

## Warm-up

### How Many Do You See: Apples

How many do you see? How do you see them?

Activity 1

# How Many Apples?

Solve each problem. Show your thinking using objects, a drawing, or a diagram.

1. A farmer puts 24 apples in boxes. She puts 8 apples in each box. How many boxes are there?

2. A farmer puts 42 apples in boxes. She puts 6 apples in each box. How many boxes are there?

3. A farmer puts 32 apples in boxes. She put 4 apples in each box. How many boxes are there?

Activity 2

# Gallery Walk: Apples in Boxes

1. Visit the posters around the room with your partner. Discuss what is similar and what is different about the thinking shown on the posters.
2. Reflect on what you saw. Write 1 thing that was similar and 1 thing that was different about the thinking shown on the posters.
