Invisible Triangles: Similarity

Transformer

Listen to hear which parts of the triangles correspond. Then give instructions to take one triangle onto the other.
Possible instructions:

- Translate _____ from _____ to _____.

- Rotate _____ using _____ as the center by angle _____.

- Rotate using _____ as the center so that _____ coincides with _____.

- Reflect _____ across _____.

- Reflect _____ across the perpendicular bisector of _____.

- Dilate _____ using center _____ and a scale factor of _____.

Invisible Triangles: Similarity

Card A

Tell the transformer which parts correspond.

$$\frac{AB}{DE} = \frac{AC}{DF} = \frac{BC}{EF}$$

Invisible Triangles: Similarity

Card B

Tell the transformer which parts correspond.

$$\frac{AB}{DE} = \frac{AC}{DF} = \frac{BC}{EF}$$

Invisible Triangles: Similarity

Card C

Tell the transformer which parts correspond.

$$\frac{AB}{DE} = \frac{AC}{DF} = \frac{BC}{EF}$$
