Directions:

- Take out the cards that show 0 and 10. Set them aside.
- On your turn:
  - Start at 55. Pick a number card.
  - Add that number to your starting number.
  - Write an equation to represent the sum.
- Each round, the sum from the last equation is the starting number in the new equation.
- Take turns until you've played 6 rounds.
- The partner to get a sum closer to 95 without going over wins.

| number card | equation |
|---|---|
| | $55 + _____ = _____$ |
| | $_____ + _____ = _____$ |
| | $_____ + _____ = _____$ |
| | $_____ + _____ = _____$ |
| | $_____ + _____ = _____$ |
| | $_____ + _____ = _____$ |
