Unit 6, Lesson 12

Ways to Represent Measurement Situations

Let’s make sense of and represent measurement situations at the fair.

Warm-up

Notice and Wonder: The Fair

What do you notice? What do you wonder?

Activity 1

Giant Pumpkin Event

1. Write a list of mathematical questions that could be asked about this image.

2. Work with your partner to solve the problem you were given by your teacher. On a poster, write the problem you solved and show the thinking you used to solve it.

Activity 2

Card Sort: Giant Pumpkins

Your teacher will give you a set of cards with situations and diagrams.

Match each situation to a diagram. Be ready to explain your reasoning.
