

Lesson 2: Relate Addition and Subtraction within 10

- Let's think about the relationship between addition and subtraction.

Warm-up: What Do You Know About 10?

What do you know about 10?

2.2: Sums of 10

- For each cube tower, write as many equations as you can think of that represent the cubes.

A

B

C

D

E

2. Find the number that makes each equation true. Then write the letter of the cube tower that represents the equation.

$3 + \underline{\quad\quad} = 10$

Letter:

$10 - 7 = \underline{\quad\quad}$

Letter:

$10 - 5 = \underline{\quad\quad}$

Letter:

$2 + \underline{\quad\quad} = 10$

Letter:

$10 - 1 = \underline{\quad\quad}$

Letter:

$10 - 2 = \underline{\quad\quad}$

Letter:

$\underline{\quad\quad} + 6 = 10$

Letter:

$\underline{\quad\quad} + 9 = 10$

Letter:

$5 + \underline{\quad\quad} = 10$

Letter:

$10 - \underline{\quad\quad} = 4$

Letter:
