

Card Sort: Fraction Division
A

$$3 \div \frac{1}{3}$$

Card Sort: Fraction Division
B

$$3 \div \frac{1}{4}$$

Card Sort: Fraction Division
C

$$4 \div \frac{1}{2}$$

Card Sort: Fraction Division
D

$$4 \div \frac{1}{3}$$

Card Sort: Fraction Division
E

Jada has 3 cups of granola. One serving of granola is $\frac{1}{3}$ cup. How many servings of granola does Jada have?

Card Sort: Fraction Division
F

Noah has 3 liters of orange juice. A serving of orange juice is $\frac{1}{4}$ liter. How many servings of orange juice does Noah have?

Card Sort: Fraction Division
G

Priya wants to run 4 miles. The track is $\frac{1}{2}$ mile long. How many times does she have to run around the track?

Card Sort: Fraction Division
H

Noah cut a 4 foot long ribbon into pieces that are $\frac{1}{3}$ foot long. How many pieces are there?
