

The worksheet contains 10 identical horizontal rows. Each row is defined by three horizontal lines: a thick black top line, a middle line with 7 evenly spaced dots, and a thick black bottom line. The rows are stacked vertically with equal spacing between them.

The image displays a series of 12 horizontal lines, each accompanied by seven evenly spaced dots. These lines and dots are arranged in a grid-like pattern, providing a structured space for students to write short strips of text or mathematical expressions. The dots are positioned at regular intervals along each line, serving as guides for letter placement or as starting points for writing.
