

Directions:

- Choose how many counters to put in the cup.
- Partner A: Shake and spill.
- Both partners: Determine how many red counters and how many yellow counters there are and write an equation to show the total.
- Switch roles and start the next round.

| round | Write an equation to represent the red and yellow counters. |
|-------|---|
| 1     |   |
| 2     |   |
| 3     |   |
| 4     |   |
| 5     |   |
| 6     |   |
| 7     |   |
| 8     |   |
