

Info Gap: Lines

Problem Card 1

Graph and write an equation for line n .

Info Gap: Lines

Data Card 1

- Line n intersects line r at $x = 6$.
- Line n passes through the point $(3, -1)$.
- Line n crosses the x -axis at $x = 4.5$.
- Line n is a translation of line ℓ .

Info Gap: Lines

Problem Card 2

Graph and write an equation for line p .

Info Gap: Lines

Data Card 2

- Line p has the same x -intercept as line ℓ .
- Line p is a 90° rotation of line r using $(-0.8, 4.4)$ as a center.
- Line p intersects line r .
- Line p is perpendicular to line r .
