**D**

Activity 1

# Make 65 Using Tens and Ones

Create a collection of 65.
You may not break apart any towers.
You may not make any new towers.

Show your collection in a way that others will understand.

If you have time, think of another way to make 65 using the cubes in the bag.

Activity 2

# Make 37 in Different Ways

How many ways can you make 37?
Show your thinking using drawings, numbers, or words.

Activity 3

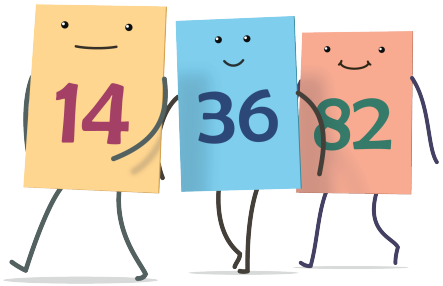

# Centers: Choice Time

Choose a center.

## Greatest of Them All

## Get Your Numbers in Order

## Grab and Count
