Pyramid P1

The diagram illustrates a geometric partitioning of a large triangle. The triangle is divided into three distinct regions by two internal lines. The top-left region is filled with a dense grid of small black stars. The top-right region is shaded in a solid light gray. The bottom region, which is the largest, is white and contains the label 'P2' in a bold, black, sans-serif font. The lines defining the regions are thin and black.

Pyramid P3
