Unit 6, Lesson 6

Estimate and Measure Weight

Let's measure and estimate weight.

Warm-up

Notice and Wonder: Produce Stand

What do you notice? What do you wonder?

Activity 1

Estimate Weight

This paper clip weighs *about* 1 gram.

This basket of apples weighs *about* 1 kilogram.

1. For each weight measurement, find an example of something you think has about the same weight.
   a. 1 gram
   b. 10 grams
   c. 100 grams
   d. 1 kilogram
   e. 2 kilograms

2. Find some objects in the room that belong in each column based on their weight.

less than 1 gram	between 1 gram and 100 grams	between 100 grams and 1 kilogram	more than 1 kilogram

Activity 2

The Weight of Pets

Match each pet to the amount that could be its weight. Explain your reasoning.

pet	weight
1. guinea pig	A. 20 kilograms
	B. 1 kilogram
	C. 3 kilograms
	D. 3 grams
2. dog 	
3. small fish	
4. cat
