Unit 6, Lesson 1

Measure in Halves of an Inch

Let's measure the length of objects around the room.

Warm-up

What Do You Know about Inches?

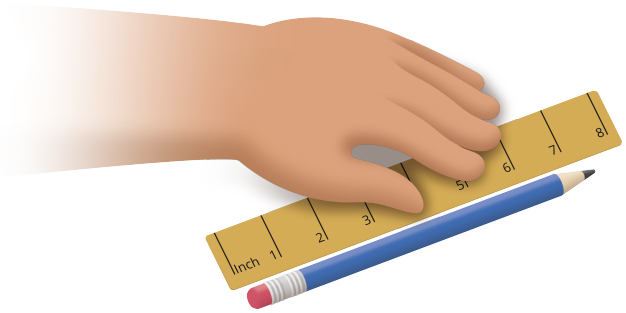

What do you know about inches?

Activity 1

Measure around the Room

Use the ruler from your teacher to measure the length of objects in the room. Be prepared to discuss your reasoning.

object	length (inches)

Activity 2

Partition Inches into Halves

You will need 1 ruler from an earlier activity.

1. Work with your partner to partition every inch on the ruler into halves of an inch.
2. Take turns using this ruler to measure some lengths around the room. Measure each length to the nearest half inch.

object	length (inches)
