Matching Equation Moves, Spanish

1

$3x + 7 = 5x$

$7 = 2x$

Matching Equation Moves, Spanish

Multiplica cada lado por $-\frac{1}{3}$.

A

Matching Equation Moves, Spanish

2

$12x + 3 = 6$

$4x + 1 = 2$

Matching Equation Moves, Spanish

Suma $-3x$ a cada lado.

B

Matching Equation Moves, Spanish

3

$10 - 6x = 4 + 5x$

$7 - 6x = 1 + 5x$

Matching Equation Moves, Spanish

Suma $3x$ a cada lado.

C

Matching Equation Moves, Spanish

4

$\frac{5x}{-3} = \frac{12}{1}$

$5x = -36$

Matching Equation Moves, Spanish

Suma -3 a cada lado.

D

Matching Equation Moves, Spanish

5

$-3(4x - 3) = -15$

$4x - 3 = 5$

Matching Equation Moves, Spanish

Multiplica cada lado por $\frac{1}{3}$.

E

Matching Equation Moves, Spanish

6

Matching Equation Moves, Spanish

Multiplica cada lado por -3.
