Kindergarten, Unit 2 Section A Checkpoint	• Count up to 10 objects and know the number remains the same regardless of the arrangement of objects.				• Compare the number of objects in groups of up to 10 objects.		
	Say one number for each object.	Answer "how many?" without counting again.	Answer "how many?" about a group that has been rearranged without counting again.	Use the structure of 5 (in 5-frames or fingers) to count on from 5 and tell how many.	Compare the number of objects in groups.	Use "more," "fewer," and "the same number" to describe comparisons.	Make groups with more, fewer, or the same number of objects than a given group.
