Directions:

- Pick a fraction card.
- Write your number on any space on the board. The numbers must go from least to greatest. If your number is equivalent to a number already on the board, you can write it in the same space.
- You can't move a number once it is on the board. If your number can't be placed on the gameboard, you keep the card, say "pass." You get a point.
- Take turns until all the spaces on the board are filled or there aren't any more fractions that fit on the board. The partner with fewer points wins the game.

**Least** **Greatest**

**Points**

| Partner A | Partner B |
