Lesson 14: Expressions and Story Problems

- Let's figure out how expressions go with the story problems.

14.1: Expression for a Story Problem

There were 10 people riding bikes in the park.

Then 6 of the people stopped riding to have lunch.

How many people are riding bikes now?

14.2: Which Expression?

1. There were 2 rocks in Lin's jar.

   At the park, Lin put 4 more rocks into her jar.

   How many rocks are in Lin's jar now?

$$3 + 3 \qquad 6 - 2 \qquad 2 + 4$$

2. There were 8 kids playing hopscotch.

   3 of the kids left to go jump rope.

   How many kids are playing hopscotch now?

$$8 + 3 \qquad 3 - 3 \qquad 8 - 3$$

14.3: Centers: Choice Time

Choose a center.

Number Race
