Directions:

- Remove the cards that show 10. Set them aside.
- Each partner:
  - Take 6 cards.
  - Choose 4 cards to make an addition expression.
  - Write an equation to show the sum of the numbers you made.
  - Your score for each round is the difference between your sum and 5.
- Take new cards so that you have 6 cards to start the next round.
- Add your score for each round. The partner with the lower score wins.
