Directions:

- Remove the cards that show 10. Set them aside.
- Each partner:
  - Take 6 cards.
  - Choose 3 cards to make a multiplication expression with a fraction and a whole number.
  - Write an equation to show the product of the numbers you made.
  - Your score for each round is the difference between your product and 5.
- Take new cards so that you have 6 cards to start the next round.
- Add your score for each round. The partner with the lower score wins.
