Unit 4 Lesson 1: How Many Groups?

WU How Many Do You See: Apples (Warm up)

Student Task Statement

How many do you see? How do you see them?

1 How Many Apples?

Student Task Statement

Solve each problem. Show your thinking using objects, a drawing, or a diagram.

1. If 24 apples are put into boxes with 8 apples in each box, how many boxes are there?
2. If 42 apples are put into boxes with 6 apples in each box, how many boxes are there?
3. If 32 apples are put into boxes with 4 apples in each box, how many boxes are there?

2 Gallery Walk: Apples in Boxes

Student Task Statement

1. Visit the posters around the room with your partner. Discuss what is the same and what is different about the thinking shown on each poster.
2. Reflect on what you saw. Write down one thing that was the same and one thing that was different about the thinking shown on each poster.
