

## Directions:

- Roll 2 number cubes. Use the numbers to create a division expression with a whole number and a unit fraction.
- Write the equation to represent the quotient.
- Check your partner's work to make sure you agree.
- Compare the value of your quotients to determine the number of points each partner gets:
  - 5 points for the largest quotient
  - 3 points for the smallest quotient
- Take turns. The partner with more points after 6 rounds wins the game.

| round | equation | points |
|-------|----------|--------|
| 1     |          |        |
| 2     |          |        |
| 3     |          |        |
| 4     |          |        |
| 5     |          |        |
| 6     |          |        |
