

Card Sort: More Representations

Noah ate  $x$  ounces of blueberries,  
and Elena ate  $\frac{1}{3}$  less than that.

Card Sort: More Representations

$$y = 0.\overline{6}x$$

Card Sort: More Representations

Elena biked  $x$  miles, and  
Noah biked  $\frac{2}{3}$  more than that.

Card Sort: More Representations

$$y = 1.\overline{6}x$$

Card Sort: More Representations

Noah saved  $x$  dollars, and  
Elena saved  $\frac{1}{10}$  less than that.

Card Sort: More Representations

$$y = 0.9x$$

Card Sort: More Representations

Noah bought  $x$  pounds of apples,  
and Elena bought  $\frac{1}{4}$  less than that.

Card Sort: More Representations

$$y = 0.75x$$

Card Sort: More Representations

Elena swam  $x$  laps in the pool, and  
Noah swam  $\frac{2}{5}$  less than that.

Card Sort: More Representations

$$y = 0.6x$$

Card Sort: More Representations

Elena ate  $x$  pretzels, and  
Noah ate  $\frac{1}{3}$  more than that.

Card Sort: More Representations

$$y = 1.\overline{3}x$$

Card Sort: More Representations

Noah ran  $x$  kilometers, and  
Elena ran  $\frac{3}{10}$  more than that.

Card Sort: More Representations

$$y = 1.3x$$
