

Place Value Comparisons (Part 2)

Let's compare 3-digit numbers using place value.

Warm-up

True or False: Greater Than or Less Than

Decide if each statement is true or false. Be prepared to explain your reasoning.

- $86 > 80 + 4$
- $400 + 40 + 6 < 846$
- $330 < 300 + 3$
- $500 + 50 > 505$

Activity 1

Compare and Explain

Compare the numbers.

1.

$$521 \quad \square \quad 523$$

$<, >, \text{ or } =$

Show your thinking using drawings, numbers, or words.

2.

$$889 \quad \square \quad 878$$

$<, >, \text{ or } =$

3. Find the number that makes each comparison true. Use each number only once.

810

529

752

495

a. _____ $>$ 519

b. 687 $<$ _____

c. _____ $<$ 501

d. _____ $>$ 793
