

Target Measurement Stage 4 Recording Sheet

Directions:

- Partner A:
 - Choose a target angle measure.
 - Begin to turn the handmade protractor.
- Partner B:
 - Say "Stop!" when you think the measure of the angle is equal to the target measurement.
- Both partners measure the line and find the difference between the actual measurement and the target measurement.
The difference is Partner B's score for the round.
- Take turns. After 8 rounds, the player with the lowest total score wins.

round	Partner A			Partner B		
	target degrees	actual degrees	points	target degrees	actual degrees	points
