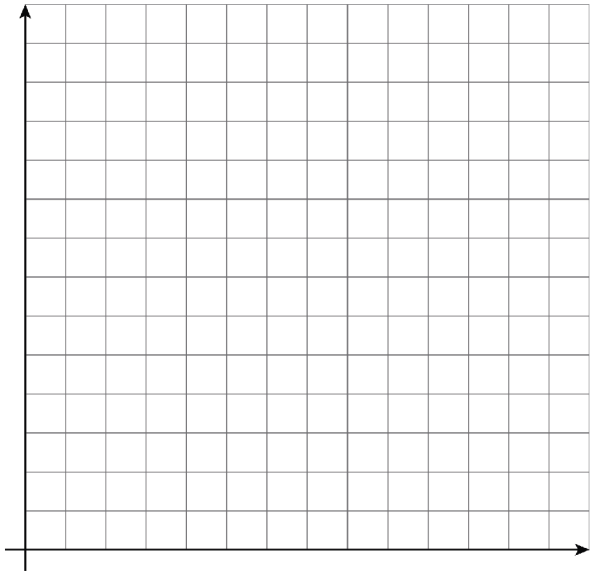
Info Gap: Graphing Proportional Relationships

Problem Card 1

Sketch a graph that shows the relationship between grams of honey and cups of flour needed for a bakery recipe. Show on the graph how much honey is needed for 17 cups of flour.



Info Gap: Graphing Proportional Relationships

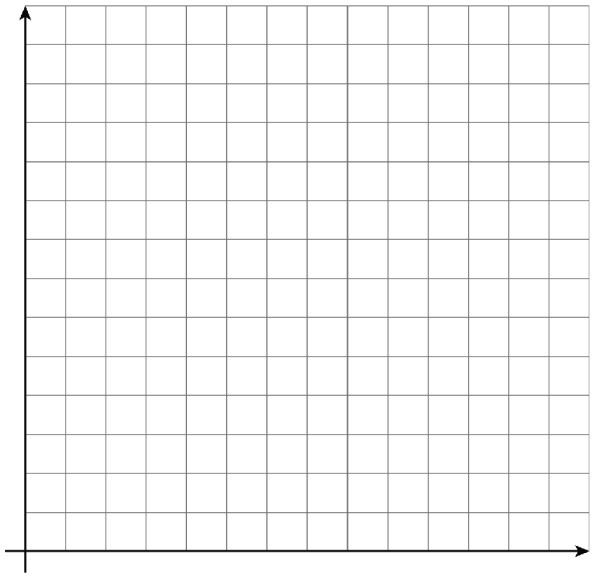
Data Card 1

salt (g)	honey (g)	flour (c)
15	27	6
25	45	10

Info Gap: Graphing Proportional Relationships

Problem Card 2

Sketch a graph that shows the relationship between grams of salt and cups of flour needed for a bakery recipe. Then show on the graph how much salt is needed for 23 cups of flour.



Info Gap: Graphing Proportional Relationships

Data Card 2

salt (g)	honey (g)	flour (c)
10	14	4
25	35	10
